

Shadi Rahimfallah

Ph.D. Candidate in Economics, York University · Expected completion 2027

Toronto, ON | shadirf@yorku.ca | +1-905-782-5319 | shadirahimfallah.github.io | [LinkedIn](#)

Last updated: September 2026

PROFILE

Economics Ph.D. candidate at York University in macro-finance, with **five years of experience** in industry and economic consulting. Research and industry work spans **structural modeling**, **econometrics**, and **forecasting**, applied to risk, scenarios, and market competition. Works with large datasets and explains results clearly to decision-makers. Strong programming skills in **MATLAB**, **Python**, and **Stata**. **Authorized to work in Canada**.

RESEARCH INTERESTS

Macro-finance · Firm dynamics and productivity · Market competition and regulation

EDUCATION

Ph.D. in Economics, York University, Toronto 2022 – 2027 (expected)

Supervisors: [Tasso Adamopoulos](#) and [Chaoran Chen](#)

M.Sc. in Energy Economics, University of Tehran 2016 – 2019

Supervisor: [Farkhondeh Jabalameli](#)

B.Sc. in Theoretical Economics, Shahid Beheshti University, Tehran 2012 – 2016

RESEARCH

Financial Frictions, Used Capital, and Misallocation 2024 – 2026

Job market paper · Sole author · [Paper \(PDF\)](#) · [Abstract and details](#)

General-equilibrium model of firm dynamics in which **collateral-constrained firms rent new and used capital**.

Presented at: 60th CEA Annual Meetings, Simon Fraser University, 2026 · 59th CEA Annual Meetings, Université du Québec à Montréal, 2025 · Macro Development Group (MDG), York University, 2026 and 2025.

Capacity Market Design 2026 – present

Work in progress · With [Jeremy Lin](#), PhD — formerly PJM Interconnection

Work on how capacity markets should value different generation technologies.

Firm Size, Technology Adoption, and Aggregate Productivity 2026 – present

Working paper · Draft in progress

PUBLICATION

Jabalameli, Farkhondeh, and Shadi Rahimfallah (2023). “Goeconomics of Global Energy Transformation.” *Journal of World Sociopolitical Studies* 7(1): 55–87. doi.org/10.22059/wsps.2023.363112.1370

ARDL analysis of WTI crude-oil and U.S. polyethylene prices during the shale-gas expansion: positive long-run pass-through, no short-run effect, one-way causality.

RESEARCH ASSISTANTSHIPS

Research Assistant: Land-Titling Randomized Controlled Trial, Philippines 2024 – 2025

For [Tasso Adamopoulos](#) and [Chaoran Chen](#), York University · Python, Stata

- **Replicated** selected results from a World Bank **cluster RCT** using raw baseline and endline survey data.
- Conducted **baseline balance** and **attrition checks**; estimated **intent-to-treat (ITT)** effects of land titling on log household consumption using **ANCOVA**.
- Tested effects on **consumption volatility** using a **conditional-variance test**, with standard errors clustered at the randomization unit.

- Applied a **Townsend-style consumption-insurance test** using cluster-demeaned income and consumption changes; tested whether titling reduced income-shock pass-through using **treatment interactions**, and examined differences by baseline land wealth using **triple interactions**.

Research Assistant: Trade Risk and Food Security

2023 – 2024

For Tasso Adamopoulos, York University · Stata, Python

- Built a cross-country **country–year panel dataset**: cleaned World Bank indicators and merged them with FAO food data on country and year identifiers.

Research Assistant: Gas Pricing and Sectoral Allocation in Iran

2018

For Farkhondeh Jabalameli, University of Tehran · MATLAB, Stata

- Compared Iran's **administered feedstock gas price** for industry with market prices.

PROFESSIONAL EXPERIENCE

Senior Financial & Economic Analyst

2019 – 2021

Partogen Beh Tashkhis, a group of four medical diagnostics companies in Tehran · Python, Stata, SQL, Tableau

- Led **financial and market analysis** across four medical diagnostics companies.
- Developed **demand, price, and cost forecasts** to inform budgeting and business planning.
- Presented **financial results and market insights** to CEOs and shareholders.
- Developed **business cases for new products**, assessing market size, costs, and expected sales.
- Developed the **investment case for launching COVID-19 PCR testing** using existing equipment.

Financial & Economic Analyst

2016 – 2019

Partolab (Partogen Beh Tashkhis), Tehran

- Built **demand and pricing models** using sales data.
- Analyzed **competitor pricing and market shares** to assess market positioning.
- Prepared **budgets and financial reports** for the laboratory and three affiliated companies.
- Supported **supply planning** for imported laboratory materials.
- Evaluated suppliers based on **cost, delivery timelines, and exchange-rate risk**.

Economic Analyst

May – Sep 2017

Batab Kara, an economic and investment consulting firm in Tehran · MATLAB, Stata

- Produced **economic and investment analyses** and presented findings to client CEOs.
- Developed a **house-price forecasting model in MATLAB** and evaluated **investment-timing scenarios**.
- Assessed an exporting client's **trade risk**, including exposure to sanctions and export-market concentration.

TEACHING

Teaching Assistant, Department of Economics, York University

2022 – present

Mathematical economics, intermediate micro and macro theory, labour economics, economic policy in developing countries, project appraisal

Graduate Econometrics Initiative, Department of Economics, University of Tehran

2018 – 2020

Leader and instructor

TECHNICAL SKILLS

Structural modelling	Heterogeneous-agent general-equilibrium models built and solved from scratch; dynamic programming; moment-based calibration; counterfactual and scenario analysis
Econometrics and causal inference	Panel regressions with fixed effects and clustered inference; randomized-trial analysis (intent-to-treat, ANCOVA, balance and attrition checks); difference-in-differences with cluster-robust inference; demand-elasticity estimation; time-series and scenario forecasting
Programming	MATLAB, Python, Stata · SQL, Tableau · Git/GitHub
Financial analysis	Financial-statement analysis; budgeting and forecasting; DCF, NPV, project appraisal; market sizing and pricing; risk analysis (FX, market concentration); reporting to executives and clients

AWARDS, TRAINING, AND SERVICE

Scholarships and Awards

- LA&PS Dissertation Fieldwork Fellowship, York University 2025
- Full Ph.D. Scholarship, York University 2022
- M.Sc. full scholarship, University of Tehran · top 1% nationally in entrance exam 2016
- B.Sc. full scholarship, Shahid Beheshti University · top 1% nationally in entrance exam 2012

Training

- MacroFinance, Princeton University · full scholarship 2025
- Computational Methods for Macroeconomics, Econometric Society · full scholarship 2023
- Decision-Making under Risk, University of Würzburg · full scholarship 2021

Service

- Session Chair, 59th CEA Annual Meetings 2025
- Secretary, Economics Graduate Student Association, York University 2024
